This Click Studios End User Software Licenses Agreement (the “**Agreement**”) is between you and Click Studios (SA) Pty Ltd (ABN 68 552 128 552) (“**Click Studios**”). If you are agreeing to this Agreement not as an individual but on behalf of a company, government, or other entity for which you are acting then “**Customer**” or “**you**” means your entity and you are binding such company, government or entity to this Agreement. Click Studios may modify this Agreement from time to time, subject to the terms in section 17 of this Agreement.

The “**Effective Date**” of this Agreement is the date which is the earlier of (a) your initial access to or use of the Software (as defined below), or (b) the date of the first Order.

By clicking on the “I agree” (or similar button) that is presented to you at the time of your Order, or by using or accessing the Software, you indicate your assent to be bound by this Agreement. If you do not agree to this Agreement, do not use or access the Software.

This Agreement is made and effective,

BETWEEN: **Click Studios**

AND: **[You]**

Scope of Agreement

This Agreement governs your initial Order or purchase of Click Studios Software, Annual Support and Upgrade Protection and any additional Subscriptions, as well as any future purchases made by you that reference this Agreement.

1. Definitions

“**Computer**” means a computer device that accepts information in digital or similar form and manipulates it for a specific result based on a sequence of instructions.

“**Enterprise Trial**” has the meaning set out in section 8 of this Agreement.

“**Internal Network**” means a private, proprietary network resource accessible only by employees and individual contractors (i.e., temporary employees) of a specific corporation or similar business entity. Internal Network does not include portions of the Internet or any other network community open to the public, such as membership or subscription driven groups, associations and similar organizations.

“**Nominated Contacts**” means your nominated contact names and email addresses. You may specify up to four (4) sets of contacts by supplying the First Name, Surname and email address for each contact. These contacts receive all license keys, important information and automated renewal notifications. **It is your responsibility to ensure your Nominated Contacts are accurate, current and complete.**

“**Order**” means any order for Software, an Enterprise Trial or Annual Support and Upgrade Protection made by or on behalf of the Customer. The specifics of each order are detailed in the quotation supplied and invoice issued by or on behalf of Click Studios.

"Passwordstate Instance" means one (1) unique production installation of the Software as defined by the license key's Registration Name and Registration Key. This applies to Client Access and Enterprise Licenses.

"Permitted Number" means the number shown at License Count in your latest license key email and as shown in your Passwordstate Instance Licensing screen as the License Count associated with Client Access Licenses. If you are entitled to use Enterprise Licensing the Permitted Number is unlimited.

"License Set" is a unique Registration Name plus unique Registration Key combination that entitles you to the corresponding Permitted Number of Client Access Licenses that were purchased. The term is typically used when dealing with multiple License Sets purchased by a customer.

"Software" means (a) all of the information with which this Agreement is provided, including but not limited to (i) Click Studios or Click Studios supplied third-party software files and other computer information; (ii) related explanatory written materials and files ("**Documentation**"); and (iii) any modified versions and copies of, and upgrades, updates and additions to, such information, provided to you by Click Studios at any time, to the extent not provided under a separate agreement (collectively, "**Updates**").

"Third-Party Products" means any software product or service not supplied by Click Studios. This includes but is not limited to database, computer operating systems, web server software, network device, load balancer and reverse proxy software.

2. Terms and Conditions Precedence

Click Studios does not accept and will not sign any document that changes the terms and conditions within this Agreement. No provision of any purchase order or other business form employed by you will supersede, supplement or take precedence over the terms and conditions of this Agreement, and any such document relating to this Agreement will be for administrative purposes only and will have no legal effect. If you do not agree to this Agreement, you must not use or access the Software.

3. Software Usage

3.1 MSP Licensing

This Agreement does not apply to Click Studios Managed Service Provider ("**MSP**") version of Passwordstate, the use of which requires a separate agreement with Click Studios.

3.2 Perpetual License

Subject to the terms and conditions of this Agreement, Click Studios hereby grants to you a perpetual, non-exclusive, non-sublicensable and non-transferable license to install and use the Software and Documentation ("**License**"). Such License remains in force until you stop using the Software or until Click Studios terminates the License because of your failure to comply with this Agreement or any other applicable terms and conditions.

3.3 Features bound to Annual Support and Upgrade Protection

Click Studios has additional controls relating to the use of some features in Passwordstate. Certain features included in the Software are bound to your Annual Support and Upgrade Protection coverage. - b) **Global Licensing** entitles you to an unlimited number of Passwordstate Instances. Each of these instances uses an Enterprise License with the Permitted Number of users being unlimited. Each of these Passwordstate Instances must be installed under the same company structure - no part owned subsidiary companies, partner companies, or alternate government departments are permitted to use this license.

- c) **High Availability Licensing** entitles you to a secondary Passwordstate Instance for the purpose of Disaster Recovery and Business Continuity. If purchased with a Global License, then unlimited installs of the High Availability module are also permitted under the same company structure - no part owned subsidiary companies, partner companies, or alternate government departments are permitted to use this license. **For the avoidance of doubt, you must purchase the High Availability license if you wish to use Virtual Server Replication technologies for disaster recovery or business continuity purposes.**

3.7 Permitted Number of Users

Each Passwordstate Instance may only be accessed by the Permitted Number of licensed named users (not the concurrent number of users). You may not exceed the Permitted Number of users for any Passwordstate Instance.

Click Studios is not responsible for any access to or use of your data by any third-party provider or Third-Party Products, or for the security or privacy practices of any third-party provider or Third-Party Products. You are solely responsible for your decision to permit any third-party provider or Third-Party Product to use your data. It is your responsibility to carefully review the agreement between you and the third-party provider, as provided by the applicable third-party provider.

Some features included in our software are bound to Annual Support and Upgrade Protection (refer to 3.3 Features bound to Annual Support and Upgrade Protection). While a customer's Passwordstate Instance is actively covered by Annual Support and Upgrade Protection all licensed and subscribed features are enabled. The Annual Support and Upgrade Protection period is valid until the "Expires" date in your license key email. This date is shown in your Passwordstate Instance Licensing screen as the Annual Support date. All renewals for

Annual Support and Upgrade Protection will be charged at the then-current rates. **For the avoidance of doubt, you acknowledge that some features are disabled, and, that Click Studios has no obligation to provide any technical support to customers without active Annual Support and Upgrade Protection on all Passwordstate Instances registered to them.**

Click Studios may suspend or terminate your rights to use the Software, or receive technical support, if Click Studios does not receive the corresponding payment from the Reseller.
- b) Instead of an Order with Click Studios, your order details (e.g., Software and Annual Support and Upgrade Protection period) will be as stated in the order placed with Click Studios by the Reseller on your behalf, and the Reseller is responsible for the accuracy of any such order as communicated to Click Studios.
- c) Resellers are not authorized to modify this Agreement or make any promises or commitments on Click Studios behalf, and Click Studios is not bound by any obligations to you other than as set forth in this Agreement.
- d) The amount paid or payable by the Reseller to us for your use of the applicable Software under this Agreement will be deemed the amount actually paid or payable by you to us under this Agreement for purposes of calculating the total liability to you.**

7. Future Functionality

Payment obligations for all products or services are not contingent on the purchase or use of any of our other products. You agree that your purchases are not contingent on the delivery of any future functionality or features (including future availability of any Software beyond the current License Term or any New Releases), or dependent on any oral or written public comments made by Click Studios regarding future functionality or features.

8. Enterprise Trial and Free for 5 Users

Click Studios allows you to download Passwordstate free of charge with an enterprise trial license valid for thirty (30) days ("**Enterprise Trial**").
